

BROUGHT TO YOU BY:

Hey Baby, it's date night!

FUN IDEAS TO SPICE IT UP WITH FLOWERS!

Get creative with your partner with these cute date night ideas that pair perfectly with a purchase of bulk flowers. If you're looking for wholesale flowers for your special night, we recommend purchasing a Flower Project bucket on our website or stopping in our walk-in cooler for fresh, local and wholesale!

Setting the mood...

- Order and pickup your bulk flowers for arranging. (See our buying guide on page 3 for tips on what to look for)
- Grocery shop for your romantic dinner (we have some tips on page 4)

Flower Date Ideas:

- Make it a surprise! If you know your partner will gush at the surprise of a flower arrangement you made for them and a romantic dinner set up, you won't regret it!
- Have a little flower arranging competition! You can plan it out together or have this as a surprise activity also. Divide your bulk flowers in half, and with a little help from our arranging guide on page 5, and 1, 2, 3, go! Arrange your flowers before dinner to add as a centerpiece to your dinner table
- Another idea is to arrange a large centerpiece together (yay for teamwork!) for your table and using the extra little bits to decorate your dinner table and room for extra ambiance! (maybe even throw in a small bouquet for your babysitter if you have one as a thank you for after)

Flower Buying Guide

Ingredients for two medium sized bouquets or one large bouquet.

Greenery: The essential foundation for any bouquet! 1 - 2 bunches of greenery will do

Fillers: for adding texture and filling out your bouquets. Fillers are usually fuller bunched small blooms such as spray mum, baby's breath, spray roses, etc. 1 bunch or 5 stems is recommended

Height: Add some interesting dimension to your creation! These can be stocks, snaps, or anything that makes a tall statement! 1 bunch or 5 stems is recommended

Focal Point Flowers: Think BIG blooms! Use statement flowers like Roses or Gerberas for a lower cost option. Get 4-6 stems to make it juicy.

*If this is too much to think about or you're short on time, our Flower Project buckets are already filled with all these essential ingredients for only \$50 on our website! It's the perfect amount of flowers for two medium or 1 large arrangement. You can simply order the colour palette you want and pick up as early as next day.

What's for dinner?

- If you are skilled in the kitchen go for it and make something delicious but if you are not, pastas, charcuterie platter or decorating a pre-made pizza crust goes really well with wine and takes little time to make... Don't forget there's always your favourite take-out as decorating the table can keep it classy ;)

- Get groovy and sentimental while you cook and feast! Put on your favourite couple playlist from a road trip, or from when you were first dating or your wedding dance playlist!
- Now is not the time to hold back on any candles you can find and fancy dishes, place settings you have kicking around the house (especially if they've been collecting up dust, time to put it all to good use!)
- Don't forget to display your floral creation centerpiece(s) as a feature on the table as well as placing extra flowers and greenery around your table and room.

Delicious Wines Under \$25

- Famille Perrin Côtes-du-rhône / Red wine
- Campo Viejo Rioja / Red wine
- L50 BC wine / White wine

Flower Arranging Guide

- A. Once you get home from buying your fresh blooms, trim the ends and let them rest in room temperature water for 30mins so they rehydrate.
- B. You will want to grab vases and clippers or scissor for trimming.
- C. When your flowers are rehydrated, start shaping your bouquet by placing greenery in your vase.
- D. Place your fillers to build up the body of your arrangement
- E. Now place your height flowers
- F. Place your focal point flowers centre stage or where you would like to draw the eye.
- G. Tuck in your remaining flowers to your taste until your creation feels complete

Have fun together and make the
date your own!
